ALLIES' PRINCIPLES WILL BE STANDARD FOR MEASUREMENT

Careful Consideration Is Promised of Any Peace Proposals Coming Through Neutral Powers by British Government—Neither Great Britain Nor France to Be Moved by Threats

LONDON, Oct. 4 (P).—Great Britain tonight carefully watched diplomatic developments in European capitals which it was believed might foreshadow a "call off the war move" by Adolf Hitler. For the second successive day the possibility that Germany, through some neutral powers, might suggest a peace settlement occupied a big share of Parliament's attention.

Foreign Secretary Viscount Halifax, speaking in the House of Lords, promised careful consideration of any peace proposals and said they would be measured "against the principles for which we have taken up arms." But he declared flatly, in terms similar to those of Prime Minister Chamberlain yesterday, that Great Britain can no longer be satisfied with assurances from the present German Government.

A further suggestion from a Parliamentary leader that Great Britain should not be too hasty in casting aside any peace proposals was made by Lord Snell, speaker for Labor in the House of Commons, in a similar suggestion was made in the House of Commons yesterday by David Lloyd George.

"PATHFINDERS TO PEACE"
Lord Snell hoped "the Government would never refuse to listen to a real proposal for peace" and said Great Britain should show that "in addition to being a nation of shopkeepers, we are also a nation of pathfinders of a way to a durable peace." He emphasized that Great Britain was bound "to see to it that when peace comes it is a real peace and not merely a truce."

In the House of Commons, Winston Churchill, first Lord of the Admiralty, said Great Britain proposes "to rely during the war on the methods of voluntary recruiting."

ASK OTTAWA TO DISALLOW ACT

Alberta Legislation Amending Limitation of Actions Statute Being Studied

OTTAWA, Oct. 4 (P).—Application for disallowance of an Alberta act amending the Limitation of Actions Act for the second time within a year has been made to the Justice Department and is under consideration. It was learned today.

The effect of the amendment is to outlaw all debts contracted prior to July 1, 1936, unless actions for recovery are started before July 1, 1940, or the debts are revived by new agreements.

AMENDMENT RE-ENACTED
The measure was first enacted by the Alberta Legislature in 1938 and was disallowed in March of this year. Almost immediately after disallowance the Legislature re-enacted the amendment.

The Federal Government has twelve months within which to exercise its power of disallowance of Provincial enactments.

Appeals for disallowance of the act have been made by the Edmonton Chamber of Commerce, Calgary Board of Trade Council and others who protested against "confiscatory" terms of the act on behalf of mortgage interests.

BELIEVES RELATIONS ARE NOT CONFLICTING

LONDON, Oct. 4 (P).—Viscount Halifax, Foreign Secretary, told the House of Lords today that Britain believed Russo-Turkish relations need not in any way conflict with the closest relations of this country and Turkey or between Turkey and France.

He also asserted the British Government would "recognize as the legal Polish Government" the Government established in France.

TOPPERS UNDER BAN

LONDON, Oct. 4 (P).—The traditional top hats of the Eton boys have been put under a wartime ban because they won't work with gas masks. House caps—much more utilitarian in case of an air raid—will replace the silk toppers.

B.C. SUPPORT IS PROMISED

Hon. John Hart Praises Control Measures Taken By Dominion

"British Columbia will raise no question of Provincial rights with Ottawa during the period of the war," I told Prime Minister King that, on behalf of the British Columbia Government, he could rely on this province, its Government and its people. When the war has finished, we will take up whatever differences there may then be, but not during the war," Hon. John Hart said yesterday, on his return from Ottawa.

Calling at New York to initial bonds in connection with the last Provincial loan, the Minister of Finance stopped off at Ottawa on the way back. There he met Mr. Hart, who is Minister of Finance for the Province, and the two discussed the situation in the Province.

Mr. Hart said he was much impressed by measures taken to place Canada's wartime financing on a sound basis, both by pay-as-you-go means, and also through the support of the Canadian dollar through the exchange board. British Columbia, he asserted, would cut its taxes to suit a wartime economy, and would limit public expenditures where possible in the common good.

This province will benefit from stimulated production due to wartime needs, and profiteering will be eliminated through Federal measures now enacted, Mr. Hart said, in conclusion.

Conservation Of Water Is Under Study

LETHBRIDGE, Alta., Oct. 4 (P).—The South Alberta Water Conservation Council was formed here today, when more than 100 delegates of all districts and bodies in the South interested in conservation of water and extension of irrigation met for a conference with Prairie Farm Rehabilitation Administration officials.

The conference took steps to coordinate the efforts of local organizations concerned with water storage and distribution.

NOT CONTESTING CRANBROOK SEAT

Conservatives Decide Against Running Candidate in By-Election On October 26

VANCOUVER, Oct. 4 (P).—R. L. Maitland, K.C., Conservative leader in the British Columbia Legislature, today said his party will not contest the by-election in Cranbrook provincial riding on October 26.

A Liberal candidate will be selected at a nominating convention on October 12. No definite date has yet been set for a C.C.F. convention, but party officials here said a candidate will be named.

The by-election was necessitated by resignation of P. M. MacPherson, Public Works Minister, who has been appointed to the Board of Transport Commissioners.

Swedish Iron May Come to Britain

LONDON, Oct. 4 (P).—Swedish iron, formerly exported to Germany, may soon be diverted to Britain by trade negotiations under way here between the Board of Trade experts and a delegation from Stockholm, the diplomatic correspondent of the Press Association reported tonight.

SHEEP IN GROUNDS

GENEVA, Oct. 4 (P).—The League of Nations today opened the carefully landscaped grounds surrounding the magnificent "Palace of Peace" to a herd of hungry sheep. The sheep will nibble grass on the palace grounds until late fall because their pastures have been ploughed up for cultivation under Switzerland's national wartime economy programme.

EMPIRE WAR CONFERENCE IS ARRANGED

Hon. T. A. Crerar to Represent Canada at Consultations in London

OTTAWA, Oct. 4 (P).—Joining with other Dominions in closer wartime co-ordination with Great Britain, the Canadian Government today named Hon. T. A. Crerar, only member of the present Cabinet who also held a portfolio in the 1917 Union Government, as its representative at the Imperial war consultations to be held in London.

The sixty-three-year-old Minister of Mines and Resources, a veteran of the Canadian political scene who first knew Governmental war problems as Minister of Agriculture in the Union Government of Sir Robert Borden, will leave within a few days for England. The sailing date probably will not be announced because of censorship on vessel movements.

WILL FIGHT TO VICTORY

France in Full Accord With Britain on Possible German Peace Moves

PARIS, Oct. 4 (P).—France will fight on until victorious in the "war that has been imposed on us," Premier Daladier declared today in a discussion of possible peace overtures from Germany and Russia.

"France does not wish to live longer in the state of insecurity of these last years," the Premier told the foreign affairs committee of the Chamber of Deputies in a three-hour session.

Thus the French Government was aligned with the stand taken by British leaders concerning possible German peace moves. Daladier said his Government would stand loyally with Great Britain against any German-dictated peace.

WANT DURABLE PEACE

He said that France "refuses to bow to violence and accomplished facts. She wishes not a truce between two aggressions, but a durable peace guaranteeing absolutely her national security within a system of security for all nations."

German talk of peace, the Premier told the committee, was a "trap" designed for internal propaganda purposes in the Reich.

No concrete proposal has been made to France, he asserted, but should one be made the French Government remained in entire accord with Britain's Prime Minister Chamberlain, who yesterday spoke against a dictated peace.

TRIBUTE TO MUSSOLINI

Answering questions in the long session, Daladier paid particular tribute to Premier Mussolini for his efforts up to the last minute to prevent the outbreak of war.

He said that France and Great Britain had tried in every way to solve their differences with Germany short of war, adding that Hitler "provoked the war and must shoulder the entire responsibility."

(Havas News Agency said tonight: "It goes without saying that on the diplomatic ground, as on the military, financial and economic, Franco-British solidarity remains complete.")

ADDITIONAL DECREES

Further indication of the French mood was arrest of two persons and inquiry against twenty-nine others whose names appeared on an appeal for "immediate peace."

Irish People Standing on "Neutral" Shore Wave Cheerfully to German Crew Visiting Port In Kerry in Broad Daylight

DUBLIN, Oct. 5 (P).—A German U-boat came up to a pier in broad daylight at Dingle, County Kerry, late yesterday and landed twenty-eight survivors of the 4,900-ton Greek vessel Diamantis. It had sunk little more than twenty-four hours earlier.

The landing was effected in a calm, almost nonchalant manner, just as if the U-boat were a ferry arriving from some nearby point with a load of passengers.

GOVERNMENT TAKES HAND

Will Dispose of Apples Usually Exported to Britain By Canada

OTTAWA, Oct. 4 (P).—Hon. J. G. Gardiner, Minister of Agriculture, said in a statement tonight the Government proposes to dispose of half the usual apple export in Canada as fresh fruit and dry and can the remainder.

"We have been notified that as a result of conditions brought about by the war, the normal quantity of apples will not be imported into Great Britain from Canada this year," Mr. Gardiner said. "Of a crop of not more than 15,000,000 bushels, about 50 per cent is usually exported."

NATIONAL CAMPAIGN

"The Government of Canada has already announced its plan to purchase a substantial part of the apple crop, and also proposes, through the Dominion Department of Agriculture, to carry on a national merchandising and advertising campaign for the purpose of informing the public regarding the availability of this excellent fruit and of stimulating home consumption."

The trading regulations have been so amended that only the better quality apples will be available as fresh fruit. In this connection, it is believed that everyone in Canada, and particularly the housewife, will be willing to co-operate to bring about a larger consumption of this excellent Canadian fruit during the next few months. This would solve the problem."

WELLS, B.C., Oct. 4 (P).—Employees of Cariboo Gold Quartz, Limited, one of the largest gold mine operations in the British Columbia Cariboo district, have adopted a resolution outlawing labor trouble during the duration of the war in Europe.

The resolution states that "for the duration of war members will strongly oppose any outside influence which may tend to disrupt the cordial relations now existing between the company and its employees."

The employees also promised that they "will not enter into nor take part in any labor dispute, local or otherwise, that may arise in the industry of which we are a part."

Agreement With Latvia Allows Establishment of Air and Naval Bases in Baltic State—New Pact With Estonia Allows 25,000 Red Troops in Little Republic

Moscow Seeks to Strengthen Its Position in Middle East

MOSCOW, Oct. 4 (AP).—Reports of conclusion of a Russian-Latvian agreement giving the Soviet air and naval bases in the neighboring Baltic State reached Moscow tonight.

As Joseph Stalin pressed his far-flung diplomatic campaign, foreign quarters advanced the theory that Soviet Russia also would attempt to strengthen her hand in the Middle East once she has completed negotiations with her European neighbors.

(A semi-official report in Riga, capital of Latvia, said the Latvian-Russian accord would be signed tonight. Informal sources there said the agreement would give Russia special traffic privileges over the railway to Libau, Latvian Baltic port.)

(A dispatch from Tallinn, Estonia, said the Russian-Estonian mutual assistance pact was ratified at 11 p.m. Wednesday by an exchange of letters.)

HAS EYES ON AFGHANISTAN

Diplomatic quarters said that Russia might first try to extend her influence in the Middle East by making proposals to Afghanistan, which lies between Russia and India and now is within the British sphere of influence.

A Soviet foothold in Afghanistan would give the Moscow regime a strategically important position in relation to India's northern frontier.

(A Havas News Agency dispatch from Moscow said unconfirmed reports reached the Russian capital Wednesday to the effect Soviet Russia has concentrated 300,000 troops in the Chinese province of Sinkiang, near the Indian frontier.)

DEMANDS STRICT NEUTRALITY

Russia, these reports said, told Turkey in effect to "choose between Russia and Britain" and demanded strict neutrality regardless of any pact she might enter with Great Britain and France.

In addition, the Soviet Government was reported to be demanding that Turkey allow no foreign warships other than Russia's to enter the Black Sea through the Dardanelles.

CALLS MEETING OF REICHSTAG

Hitler to Make Declaration Of War Policy at Noon Tomorrow

BERLIN, Oct. 4 (P).—Adolf Hitler tonight summoned his Reichstag for a meeting Friday noon to hear a new German declaration of policy concerning the war.

Speculation centred on the possibility whether Hitler would disclose any new chance to end hostilities.

The German point of view remained that the action in Poland is ended and that action in the west has never started.

Indications late tonight were that Hitler would decide not to go to Warsaw tomorrow for a triumphant parade of German troops into the Polish capital.

While Hitler will talk to the Reichstag, his remarks will be intended for the whole world. In official circles it was emphasized that guessing what he may say was "hazardous" and a "diservice to everyone."

NOT SACRIFICING HONOR

Turkish uneasiness over the delay in the Moscow negotiations was given expression in inspired Istanbul newspapers which asserted the Balkan States "are not consenting to the slightest sacrifice impairing their own dignity and honor."

Diplomatic quarters expressed the belief that Russia would ask transit privileges through Lithuania, Latvia's southern neighbor.

The Lithuanian Foreign Minister, Juozas Urbys, today flew back to Kaunas, his capital, unexpectedly, in a special plane, presumably for instructions.

RAINS PUT HALT TO AIR COMBAT

Action on Western Front Confined To Intermittent Exchanges of Artillery Fire

PARIS, Oct. 4 (P).—Autumnal rains today made aerial combat impossible on the Western Front. There were intermittent artillery exchanges in the Zweibrücken region, and semi-official sources said the French guns dominated that city along with the other German industrial towns of BERGHEIM, PIRANESSE, SAARBRÜCKEN, SAARLOUS and METZ.

A general staff communiqué said there were "patrols and ambushes" or various parts of the front and that a German raid south of Pirmasens was repulsed.

The communiqué asserted that a French submarine had seized and brought to port a German merchant ship.

Daladier disclosed tonight he had signed an agreement with Stefan Ouseky, Czech Minister in France, for reconstitution of the Czech army in France, bringing fresh man power to the Allied cause.

JEWESSES DEMONSTRATE

BERLIN, Oct. 4 (P).—Demonstrations by Polish Jewish women have occurred several times during the last week in Berlin synagogues, where they demanded that something be done about male relatives held in Sachsenhausen concentration camp.

Experts Chosen to Assist in Direction of Exchange Control

Graham F. Towers Thanks Firms for Allowing Placing of Experienced Men at Disposal of New Board at Ottawa

OTTAWA, Oct. 4 (C.P.).—Graham F. Towers, governor of the Bank of Canada and chairman of the Foreign Exchange Control Board, tonight announced a list of experts summoned to help administration of the board.

The chairman of the board expressed his gratitude to those business houses and financial institutions who, at considerable sacrifice and inconvenience to themselves, have made it possible for some of their experienced men to place their services at the disposal of the board.

The long list of experts was necessary, the chairman said, because of the board's policy that the public must not be unduly inconvenienced, and that the board must be permitted to carry on normal business relations abroad as well as in Canada. There will be no red tape in disposing of inquiries and in solution of problems that arise, Mr. Towers made clear.

ASSISTANT TO CHAIRMAN

D. B. Mansur, an assistant to the chairman, will be in charge of a general section to deal with special inquiries and problems of business men which require special treatment. Mr. Mansur for many years was associated with the Sun Life Assurance Company. Also in this section will be P. J. B. Lash, of Blake, Lash, Anglin & Cassels, Toronto; W. D. Matthews, of Willis, Bleckie and Cayley, Toronto; and L. A. Wilmut, customs consultant of Toronto.

Dealing with the problems of import and export trade will be W. L. Gordon, of the Bank of Canada, Toronto; D. J. Nash, of Toronto; and M. W. MacKenzie, of McDonald, Currie & Company, Montreal, with Donald Gordon, deputy governor of the Bank of Canada, as advisor.

CANADIAN SUBSIDIARIES

A special section to deal with problems of Canadian subsidiaries of foreign interests and their relations with their parent bodies will be under Allan Gibbons, of Jones, Jones & Gibbons, Toronto, and J. Church, secretary.

SECRETARIES NAMED

J. E. Coyne, formerly deputy secretary of the Central Mortgage Bank, will be secretary of the board, and R. H. Tarr will be assistant secretary.

Alex. McD. McBain, manager of the foreign relations department of the Bank of Nova Scotia, has been appointed as advisor and will be in charge of the intelligence department. He will undertake the task of interpreting the policy and regulations of the board and their practical application to interested groups such as importers and exporters and foreign banks.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to go

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food is not digested. It just stays in the bowels. Gas builds up and you feel bloated. You get constipated. Harmful poisons go into the body, and you feel sour, and the world looks black.

A mere bowel movement doesn't always get the liver clean. You need something that works on the liver as well. I take those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of a hundred but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

DELEGATE APPOINTED

CHUNGKING, China, Oct. 4 (C.P.).—Appointment of W. W. Yen, former ambassador to the Soviet Union, as China's chief delegate to the conference of the Institute of Pacific Relations to be held in Victoria, B.C., next month, was announced tonight. The delegation will include a number of Chinese scholars and experts on Pacific affairs.

THREE EXPLOSIONS

There was an explosion near nine and a second one about two minutes later," he said. "The captain ordered the lifeboats manned and the crew came tumbling out of their quarters, many wearing only shorts. The first explosion seemed to lift the whole ship out of the water. A third explosion occurred while we were still lowering lifeboats. We were so confused we rowed the lifeboats backwards."

Naval launches assisted a Netherlands merchant-ship in rescuing the crew.

SHIPPING PROHIBITION

Further support of the shipping prohibition, as a measure which should be adopted at once, came from Senator Charles W. Tobey (Republican, New Hampshire), who moved an amendment seeking to have this clause dealt with separately and quickly, fearing attack upon an American vessel might involve the United States in war even while debate is proceeding.

Shipping restriction considered would be given the motion Monday.

SHIP BAN MAY GET APPROVAL

Debate on Arms Embargo Continues in United States Senate

WASHINGTON, Oct. 4 (C.P.).—Regardless of whether the arms embargo legislation is repealed, today's debate in the United States Senate indicated the proposed legislative changes to ban American shipping and passengers from going to belligerent countries would be adopted.

Both sides of the neutrality argument were heard in speeches by Senator Tom Connally, Democrat, Texas, and Senator Arthur Vandenberg, Republican, Michigan, an aspirant for the 1940 Republican presidential nomination.

Connally, supporting the Roosevelt Administration's neutrality revision bill, which would repeal the ban on arms sales to warring nations and require all exports to such countries be carried in non-American ships, denounced the embargo as an "unneutral aid to Germany."

Vandenberg defended the embargo as an "indispensable symbol" of non-involvement of the United States in the war.

Connally declared the embargo had the effect of arming an aggressor to prepare him for war, then refusing similar aid to the victim of his attack. Vandenberg retorted the embargo legislation was first enacted in 1935 and all nations had fair warning of United States intentions.

To repeal the embargo now, Vandenberg said, would have the effect of improving the resources of certain belligerents. Such, he held, would be an unneutral act on the part of the United States.

the nature of German peace proposals, if made, would be. But, whatever their nature, he said, the proposals will have to be considered with reference to three circumstances:

"1. The conditions in which they are offered;

"2. The Government by which they are put forward;

"3. The security that might be held to attach to any agreement which might conceivably be reached."

"As to conditions there is no more felonious and villainous proceeding than negotiation under threat of fear," he said. "Neither this country nor France will be moved by threats to surrender the principles for which they have entered the struggle."

"BITTER EXPERIENCE"

"As to the Government of Germany, we have had very bitter experience of its character and methods. As to assurance for the future, we have seen these rulers of Germany repudiate successive international documents which they had signed and reverse the most fundamental principles of their policy, which they had for years most vehemently proclaimed."

"If, therefore, in place of threats they sought to satisfy us with assurances from the present German Government is not enough."

"If and when we shall receive proposals, we shall certainly examine them with care, and we shall measure them against the principles for which we have taken up arms."

The Foreign Secretary said His Majesty's Government "have made it plain that, once violence and bad faith are laid aside, we are ready and anxious to join hands with others, including Germany, in the work of real world reconstruction."

PERPETUAL FEAR

"We have repeatedly stated our willingness to make our own contribution to this end," he went on. "But it is impossible to begin to make any progress to that end unless, firstly, there is security; and unless the nations can be released from the perpetual fear of attack by Germany and the necessity for huge armaments for their defence."

"The first duty remains that of securing conditions under which the pledged word of Governments might again be held worthy of honorable trust."

Lord Halifax said friendly Russian-Turkish relations are not incompatible with close Anglo-French-Turkish ties.

"We certainly should always be glad to see friendly relations maintained between the two great neighbors, Russia and Turkey, which we believe need not in any way conflict with the closest relations between us and Turkey, and Turkey and France," he said.

Recalling the Polish Government was now on French soil, he added:

RECOGNIZED AS LEGAL

"His Majesty's Government will, of course, recognize as legal the Polish Government as established, and no doubt that Government will continue to preserve intact the spirit of independence and resistance."

Lord Snell said British propaganda "should make the world understand that we are not merely making a war for our sake or merely to suppress something we thought a danger to the world."

"We are fighting to relieve men's hearts of the haunting fear that their sons are being brought up as munition power to be used and against the world."

Lord Cecil said "it would be impossible to accept peace involving the recognition of the conquest of Poland, but I do not feel quite sure."

The group is open to members of the senior and junior chambers, and each year elects a new chairman, who arranges a programme for the season. T. L. Sturge, last season's head of the group, will relinquish the chair in favor of a successor, to be elected at tonight's meeting.

Premier Duplessis Declares Election in Quebec Is Fight for Autonomy

THREE RIVERS, Ont., Oct. 4 (C.P.).—The Quebec election is a "fight for the life of French-Canadians and for their survival," Premier Duplessis asserted here tonight, opening his provincial campaign in his home constituency.

Accusing Dominion Government authorities of attempting to "starve" Quebec Province in the interest of assimilation, the Union Nationale Government leader called on all the people of the province to support his defence of "provincial autonomy."

"This is not a party fight," he said. "It is a fight for popular liberties. It is a fight for the life of French-Canadians and for their survival. We do not need the tutelage of Ottawa. We do not need tyranny."

The Quebec Premier attacked the Dominion Government for what he described as its refusal to contribute toward unemployment assistance in Quebec when expenditure of \$165,000,000 was planned for that province.

AGAINST CONSCRIPTION

"On the war question, I do not hide my thoughts," the Premier added. "Mr. Lapointe (Justice Minister Ernest Lapointe) makes promises and says there will be no conscription."

"I am always against conscription. I am always in favor of the use of our money for property of our country and of Quebec in particular," he declared.

"History can leave no doubt as to the loyalty of Quebec, but the first method of being loyal is by being loyal to oneself."

"Mr. Lapointe said a vote for Duplessis is a vote against the policy. It is true. A vote for Lapointe is a vote for participation, assimilation and centralization. A vote for Duplessis is a vote for autonomy against conscription."

BROADCAST BAN

He criticized Mr. Lapointe for having "prohibited broadcasts of political meetings in Quebec" while Communist newspapers continued to "circulate in Canada and in the province."

Premier Duplessis said that the general election had been called two years before the expiration of the Union Nationale Government's term of office because the administration placed the "interests of Quebec above personal gain."

The province's autonomy was "in danger," he said, "and without autonomy, there would be fusion and assimilation—Quebec's autonomy is its soul and cannot be taken away."

"The day we lose our autonomy we risk losing our educational and religious rights," he said.

Under the "War Measures Act," he continued, it had been decreed that the provinces "could not borrow outside of Canada, while in

NEUTRALITY ZONE IMPRACTICABLE

United States Naval Forces Insufficient to Patrol Vast Territory And Defend Coast

CRISTOBAL, Canal Zone, Oct. 4 (AP).—Steamship agents representing neutral lines in the Panama Canal zone, said today they feared the Panama inter-American neutrality zone declaration would prove impracticable.

They said the work of insuring defence of the safety zone would fall too heavily on the United States, whose navy would be insufficient to patrol the vast territory and at the same time defend its own coastlines.

Agents of British and French companies were of the opinion the safety zone would permit German ships to re-enter with impunity the inter-American trade clandestinely and wage warfare against British and French shipping.

One agent said it would be impossible to expect the British and German warships within the safety zone to meet without engaging in hostilities.

DANGER WITH RIFLE SHOWN

Accidental Death Is Jury's Verdict at Inquest on David George Lord

A warning to hunters of the danger of accidentally discharging certain types of rifles through jarring was contained in evidence given yesterday at an inquest into the circumstances surrounding the death of David George Lord, the youth who succumbed on Monday morning to injuries received in a shooting accident near Luxton on Sunday afternoon.

A coroner's jury returned a verdict of accidental death, attaching no blame to Charles Alvin Grieve, eighteen, a bullet from whose rifle caused Lord's death.

Grieve testified that he and the deceased had hunted deer without success in the morning, and in the afternoon met two other youths, Gordon Peden, sixteen, and Harold Crooks, seventeen. Together the four hunted a rabbit. Peden poking a stick down a hole which they found in a bank while Grieve went higher up to see whether he could find the other entrance to the hole.

SAFETY CATCH ON
 Coming back to rejoin the others, Grieve said, he laid his rifle down on the ground, and as he did so it discharged. Lord was sitting on the ground, about ten feet away from the rifle. The witness stated that the safety catch was on when he put the rifle down.

Corporal J. A. Young, Provincial Police, gave evidence that an examination of the rifle showed that it jarred it would fire when cocked, with the safety catch off, but would not do so when the catch was on. The trigger pull was comparatively light for a sporting rifle, but the mechanism had not been tampered with, and was not defective.

"With the exception of the bolt action type, most rifles can be jarred off when cocked," Corporal Young said.

GROUND WAS CLEAR

Under cross-examination by F. C. Ellis, who appeared on behalf of Charles Grieve, the police officer stated that it was possible that the rifle could have been put down in such a way as to push the safety catch off and discharge the rifle. He said that the ground where the accident occurred was soft and springy. There were no twigs or branches lying on the ground, and only two stones, the position of which was shown in photographs produced by Detective George Armstrong.

Evidence was given also by Peden and Crooks, and by William Norton and Thomas White, who gave assistance after the accident.

The extent of the injuries received by the deceased, and the path of the bullet after it entered his left hip, were described by Dr. J. H. Moore.

Coroner Dr. E. C. Hart, reviewing the evidence, said that it was a little difficult to understand how the rifle had been discharged if it had been laid on the soft ground. His belief was that the rifle possibly had struck one of the stones.

Sergeant G. A. Johnson represented the Provincial Police at the inquest. The jury comprised P. W. Massey (foreman), Philip Salmon, J. R. A. Pearson, R. L. Smith, J. P. Skinner and H. Atwell.

A unanimous decision to continue the activities of the Victoria Automobile Club was reached at the monthly meeting of the directors, at which the course to be followed by the club during the present emergency was fully discussed.

It was felt that the members would continue to require the services of the club, and that in view of increasing automobile travel from the United States, it was desirable that the activities of the Victoria club should not be curtailed.

The directors placed on record appreciation of the work of Hon. P. M. MacPherson as Provincial Minister of Public Works, and an expression of good wishes for continued success in his new appointment to the Transport Board of Canada.

WAS PIONEER OF MANITOBA

Mrs. Nancy Poitras Was Born at Fort Augustus 106 Years Ago

WINNIPEG, Oct. 4 (CP).—Manitoba lost one of its oldest and most colorful residents today when Mrs. Nancy Poitras, 106 years old, died at her home in Winnipeg.

Mrs. Poitras was born in the West, at Fort Augustus, on the North Saskatchewan River, in 1833, and often recounted tales of early Indian attacks.

Her father, Louis Plant, was tailor and keeper of the keys at the Hudson's Bay post where she was born. In 1853 she was married, and moved with her husband to a log hut on the Assiniboine River, in the district which now forms Winnipeg's West End.

The little Frenchwoman, who spoke only the language of her forebears, leaves 109 living descendants, some of them in the fifth generation.

Joseph Poitras, sixty-two, who lived with his mother, is the only one of ten children surviving. Until two years ago "Granmere" Poitras, as she was known throughout the province, danced at her famous birthday parties which took in nearly all the French-speaking population here.

THE PEACE OFFER

In 1918, when the Great War had been going on for two years and a half, Germany made overtures for peace. Today, after a month of war, the air is filled with rumors of an impending peace manoeuvre in the same quarter, and it is quite likely that the technique to be employed by Herr Hitler will resemble that of his predecessors. It is worth while to recall what happened on that occasion. The story can be read in any of the numerous histories of the war. According to John Buchan's account it appears that whenever German diplomacy attempts to be subtle it only succeeds in being maladroit. What she wants people to believe about her motives and purposes is set forth with immense emphasis and many protestations, but in spite of all her efforts to conceal her real state of mind the true reasons can always be observed, as the historian has said, "sticking out like the stuffing from a damaged marionette."

Germany, in making her peace offer twenty-three years ago, adopted the language of a conqueror. She had been everywhere successful, she was supremely confident in her strength, she was perfectly assured of final victory. Animated, however, by humanity and a desire to spare her assailants any further suffering she was now prepared to treat them with generosity. This benevolent language was very different from that which she employed at the beginning of the war. At that time she had much to say about her "will to power" and of rights which she founded upon her higher "kultur." Now she declared that it was merely for the national development that she and her allies had been constrained to take up arms. The earlier air of bluster was gone and Germany now became the "injured innocent."

That all of this proceeded from mixed and conflicting motives is clear enough. The tone of conscious superiority was intended chiefly to impress the German people in their present mood. Gone was the old lust of conquest and with it went the promise of world domination. Instead, the Germans were now told to believe that the war had been really one of defence and that German honor had been sufficiently vindicated. To win the hearts of neutrals, emphasis was laid on German magnanimity in victory and her willingness to forgive was to be the proof that the guilt of the war lay not with Germany but with her enemies. She thought, too, that the offer of peace might be welcomed by the masses in the Allied countries, and that if once the belligerents could be induced to come to a parley discussion might break up the unity of her opponents and shift the argument to minor issues. Moreover, in order to persuade them to come to terms something was added in the nature of a threat.

The official reply of the Allies was that the proposal was a sham. It was less an offer of peace than a war manoeuvre to create dissension in public opinion in Allied countries. In the opinion of the Allies "these overtures attempt to justify in advance in the eyes of the world a new series of crimes—submarine warfare, deportations, forced labor and forced enlistment of inhabitants against their own countries and violations of neutrality." They refused to consider "a proposal which is empty and insincere."

It remains to be seen whether Herr Hitler will have anything more to say in his coming Reichstag speech than that the success which has attended his Polish campaign justifies him in offering peace and forgiveness to his "assailants," that this attitude of forgiveness is a proof of his good faith and pacific intentions, and that if his peace offer is rejected he will find other means to bring Great Britain and France to his terms.

A SUPERFLUITY

Great Britain's example with her Ministry of Information should be a warning to this country not to adopt the same course, yet Ottawa is considering just such a creation. It was said that this bureau in London had almost a thousand employees and it met with nothing but execration from politicians, press and public. It has been reformed and emasculated. In this country where, as yet at all events, there is no progress of the war to report under a strict censorship, a Ministry of Information would be a superfluity. All information that it is considered necessary to make public about the Dominion's war effort can come from the various departments of Government.

Boards, bureaus and commissions are being appointed by Ottawa as a part of the paraphernalia of political direction of war effort. Some are desirable; the work that others will do could be done as well, perhaps better, by permanent officials of the Civil Service. To go on adding to these unnecessarily involves wastage of money, misdirected effort, and would imply lack of leadership. There is not the faintest need of a Ministry of Information. Such a department could be developed into an organization to serve party political ends.

NAVAL POWER

Great Britain has 26 per cent of the world's naval power and 35.6 per cent of the world's sea-going mercantile marine tonnage. The German Navy today, says Sir Archibald Hurd, a noted naval authority, "is a mere shadow of the High Seas Fleet." In mercantile tonnage Germany has not regained the position she occupied twenty-five years ago, and, "without the command of the seas Germany cannot trade on the seas." It is the opinion of Sir Archibald that British superiority in ships and trained crews should support faith in the ultimate results of the war. "No one," says the naval authority, "can foresee coming events, but from now onwards what Mahan described as the 'noiseless pressure' of British sea power will be exerted, and merchant ships, with inevitable but decreasing losses, will be proceeding on their lawful occasions under the protection of the Royal Navy, many ships

sailing under convoy in the 'danger areas.' Owing to its weakness, the German Navy, apart from the operations of submarines and stray cruisers which may escape the British blockade, will probably not be seen outside the Baltic. The idea that there will be a naval battle, however long the struggle may last, may be dismissed."

It is and always has been Sir Archibald's opinion that sea power remains the first line of defence of the British Empire. That was the lesson of the Great War. As well as the lesson of the Napoleonic struggle. The British Fleet, he says, "is stronger today in relation to all the navies in Europe than ever before in its history. Strong as is the Royal Navy today, it will be far stronger tomorrow."

INCREASING PRICES

What, if anything, is being done towards Governmental investigation into the progressive rise in the prices of so many commodities? These rises may be perfectly legitimate, but to satisfy the public they require some explanation, some assurance from authority that profiteering is not being practised. The increase in the prices of food commodities has, in some instances, been so great that consumers have not hesitated to complain but the trouble is that they are not in a position to make an investigation; that is the duty of Governmental agencies.

At the recent session of the Federal Parliament, Mr. Mackenzie King and Dr. R. J. Manion concurred in profiteering. The machinery was created by Parliament to deal with it. In each province the Attorney-General has the duty of implementing the law against undue profits being derived through the sale of necessities. Very little is being done, however, and still prices are on the increase. Since the machinery exists for making all necessary investigations they should be under way and the desirable action taken. It is not well that consumers should harbor suspicion that they are being made the victims of undue profits under the excuse of war-time conditions. For every increase in prices there should be an explanation given by some responsible authority.

There is that authority in the new Prices and Trade Board set up by the Dominion Government. It is to function so as to deal effectively with profiteers. Presumably its aegis will extend throughout the country, to rural and urban communities, and it is known that prices vary and sometimes widely in different localities and that increases in prices since the war commenced have varied sufficiently. There is no doubt whatever that consumers desire that the Prices and Trade Board should give some evidence of its existence.

Mr. Winston Churchill says: "We are fighting to save the world from the pestilence of Nazi tyranny, and defence of all that is most sacred to man. This is no war for domination, for Imperial aggrandisement, for material gain; no war to shut any country out of its sunlight and means of progress. It is a war pure in its inherent quality, a war to establish on unimpeachable rocks the rights of the individual, and it is a war to establish and revive the stature of man."

"BRITANNIA"

Mist of mysterious earth that grows More wondrous with each age it knows, She lies triumphant in the seas, The last of the Herperides.

Last paradise of human hopes, The paths that mount her seaboard slopes Are the sole escalades that rise To where the House of Freedom lies.

Kingsdoms fall down like hollow fires, Republics crumble into mounds of mire, Yet still her island-temple stands, A light above the captive lands.

But groans like flights of ravens rise Out of the desert tyrannies, Where despots Freedom's name blaspheme To consummate a Vandal dream.

Their acyeh-saw, a mow all frontiers down; City and export at their frown Run mollen, fusing with the mass From which their Babel rears its brass.

But Liberty's last Knight is God, The hundred tyrants who have trod The lands they lusted—what are they? A legend and a little cry.

Note and Comment

By SANDHAM GRAVES

Outside the window just now there are a pair of air-hammers tearing holes in your recently-laid tax-dollars.

They sound like a brace of machine guns, water-cooled, and continuously operating, except for five-second intervals of silence which are worse than would be an interrupted noise. About the only satisfaction anyone can get out of this situation is that the air-hammers are not machine guns; though even then there are some uses to which such devices might very well be put. Having for an hour endeavored to escape the inevitable rhythm of air-hammers, this column formally abandons the attempt. It will talk about air-hammers today or nothing. So air-hammers it is.

Have you ever stopped to consider that in a community of this size air-hammers should not be permitted to operate in the business section of the city during business hours? You might well take that. You would, of course, have to consider the fact that the air-hammer is a noisy machine, and that it is not a very good thing to have a noisy machine in the business section of the city during business hours. You would, of course, have to consider the fact that the air-hammer is a noisy machine, and that it is not a very good thing to have a noisy machine in the business section of the city during business hours.

The chief trouble with air-hammers is that they are not musical, and that they make a noise—an irritating, exasperating, all-embracing and inescapable noise of a discordant, hurrying, fussy and worrisome kind which makes you feel that you are being pelted with a hail of stones.

As it is now, sales talks, hurried, fussy and worrisome kind which makes you feel that you are being pelted with a hail of stones. As it is now, sales talks, hurried, fussy and worrisome kind which makes you feel that you are being pelted with a hail of stones. As it is now, sales talks, hurried, fussy and worrisome kind which makes you feel that you are being pelted with a hail of stones.

It may be cited in favor of the current offensive that only two air-hammers are being used, whereas perhaps four might have been turned loose on the job. But you could argue—and it is to be hoped you will argue—that four would have done the work more quickly; would have interfered no more with our ears; and for only half of the time by the clock. Indeed, if four air-hammers were going nobody would bother to consider business at all.

They would simply give it up as impossible. As it is now, sales talks, hurried, fussy and worrisome kind which makes you feel that you are being pelted with a hail of stones. As it is now, sales talks, hurried, fussy and worrisome kind which makes you feel that you are being pelted with a hail of stones. PRAISE FOR GREAT BRITAIN

Sir,—As the United States magazines so frequently take the liberty of gratuitous untrue criticism of our Mother Country, may I beg you to repeat the following high praise given five years ago by Mr. Albert Partridge, president of Goodyear Tire & Rubber Co.

Mr. Partridge states, after a lengthy visit to England, that Great Britain has done more for education than any other country in the world; that living conditions there impressed him greatly; that the customs of the people of the British Empire appealed to him so strongly he had decided to live in Canada.

He also paid tribute to the British press, which, he said, was less yellow than in any other country in the world; and that housing and slum cleaning were being attended to on a permanent basis.

He stated his seven years' residence in England had convinced him that it had the greatest and best Government in the world.

PATSY SWIFT FUND
Sir,—As members of the committee for the Patsy Swift fund, we wish to thank the press and all who have so generously helped to make our efforts successful.

Through your kind co-operation Miss Swift can now take advantage of the three-year scholarship granted her recently by the Cosmopolitan School of Music in Chicago, and will leave for that city this week.

The Royal Trust has now in hand sufficient funds to take care of Miss Swift's living expenses for at least one year.

GRATITUDE
Sir,—Kindly allow me, through your columns, to thank the press and all those who have so kindly helped to make it possible for me to take advantage of the three-year scholarship which I was recently granted by the Cosmopolitan School of Music in Chicago.

I will do my utmost to make good and prove worthy of the confidence so many of you have placed in me.

TECHNOCRACY INC.
Sir,—Sometime last Thursday night in Duncan some hysterical individual or individuals entered the section headquarters of Technocracy Incorporated, smashing furniture, windows and destroying literature.

The motive of this display of emotion was apparently, Technocracy's recent statement of war policy. Such lack of discipline of these would-be patriots is worth considering.

These individuals apparently wish to force conscription on the people of Canada for the purpose of stopping what they probably call that "mad, hysterical maniac Hitler" and his ruthless dictatorial methods, and then proceed to behave in a similar manner. This type of human behavior is very interesting.

They set themselves up as being opposed to dictators and in doing so they demand the right to dictate the very lives of human beings in Canada, even to having them blown to pieces, if it so suited. But that is not all. If you do not approve of this dictatorship they will take it into their own hands to smash your property.

No, Mr. Editor, we do not have to go to Europe to find dictators. The very thing we are supposed to journey to Europe to stop is apparently right here at home.

Unfortunately such individuals as our Duncan dictators are completely ignorant of the chaos which faces the 170,000,000 human beings on the continent resulting from our vast supply of natural resources resulting in an ever accelerating unidirectional trend of technology which for the first time in the history of our world has brought an abundance of goods and services to the masses.

causing prices to collapse the present rise being only artificial from war hysteria and interest to move to zero. This progression is completely undermining our worn out "price system" of commodity evaluation which is dependant upon scarcity in order to maintain values and at the same time a constantly expanding physical structure. This is a physical impossibility. It is this struggle between all that was yesterday and today; between yesterday's scarcity and today's abundance—between political interference and functional dynamics—the old and the new—Science vs. Chaos. It is not a conflict of opinions, laws or ideologies—North America's social conflict is one between the age-old method of producing physical wealth.

It is this inevitable collapse, which could bring chaos to North America if it were left to such emotional undisciplined individuals as our Duncan friends. The organization known as Technocracy Incorporated is being organized for a peaceful transition; to see that no one gets hurt in the transition from scarcity to abundance in this biggest job the home-appliance has ever undertaken. Yes, North Americans have a war, patriotic war against the peace of the price system, against its poverty and its malnutrition, its crime, its sudden death and its disease.

Technocracy has the design—read "Pax Americana!"

ENEMIES WITHIN THE GATES
Sir,—In an unguarded moment, Herr Hitler on one occasion speak the truth. With reference to the present war, now only in its initial stages, but which may assume titanic proportions, if by lies and promises he can gain active participation of Canada have no love for democracy or democratic institutions. They have been conducting for years an underground war against us, trying, by promotion of strikes, industrial disturbances and economic life. They are now trying to undermine our loyalty to the Empire by blaming the British Government for the outbreak of the war, and by mutterings against recruiting and the protective wartime measures enacted by the Dominion Government.

During the last several years they blamed the British for not making war on Italy on behalf of the savage tribes of Ethiopia; for not entering the war in Spain, where two blood-thirsty tyrants were fighting it out, and for not waging war against Germany and Italy in what would have been a vain effort to save the Sudetenland from Germany. Later, when Hitler was revealed as a liar and a cheat, and possessed with an unbridled ambition for power and aggression, and Danzig and the Polish Corridor were threatened, they joined in the universal cry of "Stop Hitler."

The British Government did try to stop Hitler by a plain illustration that aggression against Poland would mean war, and now Communists, avowed and unavowed, blame Mr. Chamberlain for starting the present war.

Hatred of the British Empire and British institutions is the underlying motive governing the activities of Communists in this and other countries. Individual liberty, justice, truth and mercy, our basic ideals, the way to the spread of the foul disease called Communism and the rise to power of would-be despots.

Campaigning under another flag (that of the C.P.), but displaying the same attitude towards British institutions. Mr. Harold Winch, M.P.P., has been in Vancouver to help the cause of Empire in this hour of peril, and to discourage the necessary work of recruiting.

This same Mr. Winch had the colossal impudence and ingratitude, while receiving taxpayers' money, to declare, in effect, in our Provincial Parliament, that if we were at war with Russia, he would fight for Russia.

While attacking the wartime protective measures, he is a living example of their necessity and the need of their enforcement.

VICTORIA RESOLUTION IS TABLED AT DUNCAN

DUNCAN, Oct. 4.—At last night's meeting of the Duncan City Council it was decided that the council was not in possession of sufficient data to endorse a resolution of the Victoria Council asking for the conservation of wealth and man power of the Dominion.

The council will take up membership in the newly-formed Upper Island Mayors and Reeves' Association, recently organized at Nanaimo.

The action of the Nanaimo-Duncan Utilities in charging the 8 per cent sales tax on their standby charge in addition to the sale of electric energy, came up for discussion, and the general manager will be asked to meet the council to discuss this and other matters.

PILOT IS INTERRED

AMSTERDAM, Oct. 4 (AP).—A twenty-five-year-old German military pilot was interred by Netherlands authorities today after he had been killed in a crash landing of a disabled plane near Neuwech, in Northwest Holland, and landed by parachute. The pilot crashed 300 yards over the frontier in Germany. The pilot said he lost his way and his fuel was exhausted.

The Observation Car

By THE EDITORIAL STAFF

According to grapevine reports, the Dominions, Canadian hoop champions, have already signed up two young players for the coming season. Their names will remain a secret for a little while at least.

At the banquet, all the players were reported as saying that they would be back in uniform, and hoping to travel East this season and bring home a title.

Austin Cullin, one of the finest young lacrosse stars in the city, and high scoring ace of Ted Menies' James Bay club, has left for Winnipeg to look over Lester Patrick's hockey school. Cullin is said to be an expert skater, and has the makings of a good hockey player in a few seasons from now.

I don't know whether Alan Strange, Seattle's popular short-stop, will better himself with the St. Louis-Brown or not. The Browns were so far in the cellar when the season ended that all the other clubs didn't even know they were in the league.

Terry Peers' football school got away to a fine start last Saturday, when seventy-four youngsters turned up. Any young fellow who wishes to be taught the finer points of the game may check in at the Athletic Park Saturday morning.

Officials of the Vancouver Island Dog Fanciers' Association will help a worthy cause when they loan the dog to the Red Cross to collect money. It will take the place of the famous Muggins, who collected thousands during the last Great War—J.D.

Let's Back the Revelers!
Canadian Rugby football fans were pleased with the showing of the Revelers when they made their debut against the Knights of Columbus at Macdonald Park last Saturday, despite the fact that they trailed 19-0 at the end of the game. It is common knowledge that many of the boys were playing their first Canadian Rugby game when they faced the green-shirts, but we venture to say that this fact will not be given any consideration by the more experienced teams who are seeking the Big Four pennant. It is unfortunate that the locals have to meet the two most powerful squads in the race all in the short space of three days. They will tackle the highly-touted Varsity on Saturday in Vancouver and then return to Victoria to match yards with North Shore, who will not have played for more than a week. The Revelers-North Shore game might be billed as some sort of a civil war, since George Deacon, mentor of the Victoria team, used his astuteness to lead the North Vancouver lads to more than one league title before coming to this city. The Revelers are a coming team and deserve all the support that local fans can give them—W.I.P.

About Hats
In this age of utter absurdity in women's hats we thought, until yesterday, that we were prepared for anything. Hats fashioned to represent old boots, miniature Burmese pagodas, or the unrecognizable pictures of the cubist have become familiar to us all. But yesterday we found that we were not yet fully shocked-proof, on discovering in an overseas paper a striking illustration of the "Pisa slant." Yes, you've guessed it; a replica of the Leaning Tower is the latest thing. We suggest now that a miniature Tower of Babel would make a very appropriate hat for an afternoon bridge party—R.M.

European Diplomacy Forcing Nazis Into An Isolated Position

Italy Remains Aloof From Current Talks of Peace
Overtures—Situation in the Baltic Is
Being Viewed With Alarm

LONDON, Oct. 4 (CP-Havas).—The wheels of European diplomacy rapidly are carrying Germany into isolation, despite her apparent close relations with Italy and Russia, usually well-informed British circles claimed tonight on the basis of official pronouncements from Rome and reliable reports from Moscow.

Italy's denial, through the Stefani News Agency, that she intends to sponsor a peace bid at present, was taken, together with recent Fascist expressions of opinion, to indicate the Mediterranean will continue to be neutral, even if Adolf Hitler's "peace offensive" fails.

THREAT IN BALTIMORE

On the other hand, the Baltic situation, cloaked in diplomatic obscurity, was regarded with increasing alarm, developments, it was held, seem to point to the Baltic rather than the Mediterranean, as a future theatre of war.

The Anglo-Franco-Turkish mutual assistance pact, reported initiated at Ankara last week, is well on its way toward final signature, British sources said. In addition, there was confidence that any eventual Russo-Turkish accord would be limited to the Black Sea and would in no way conflict with Ankara's commitments to Britain and France. Finally, reports indicated Russia would give Germany only economic help.

French officials in Paris today said reports that the tripartite accord with Turkey had been initiated were premature. Negotiations are proceeding favorably, however, they added.

NO PRESSURE USED

Information from a reliable source in Moscow tonight said the Soviet Premier and Foreign Commissar, Vyacheslav Molotov, in his current talks with the Turkish Foreign Minister, Sukru Saracoglu, had exercised no pressure for denunciation of

Turkish commitments to the democracies. As for Italy, there is now no doubt here among qualified observers that the Reich gave certain "peace proposals" to Foreign Minister Galeazzo Ciano without any hope that the Italian Government would be willing to communicate them to the Allies.

At the same time, it was difficult for Rome merely to reject a mediatory role out of hand, these sources said, and Ciano was said to have taken to Berlin an Italian "peace plan" which went much farther than any believed acceptable to the Nazis.

The same sources added that when the Germans rejected this, it was naturally much easier for Ciano to reject the Nazi offer, alleging the impossibility of proposing a peace whose terms were sure to be turned down by London and Paris.

ITALY STAYS OUT

These exchanges explain today's Stefani communique, London observers claimed. Italy is determined to keep out of the fight, at least for the present. Expected dispatch of her new ambassador, Giuseppe Bastianini, to London, will give final proof that she intends no sudden adventure, it is argued.

Another reason for confidence in a quiet Mediterranean is the attitude of Spain, which one spokesman described here as "100 per cent" neutral.

The new Spain, he argued, is shifting toward a complete parallelism of view with Italy, with increasingly cooler relations with Germany.

ARTICLE NO. 6

By Robert G. Jackson, M.D.

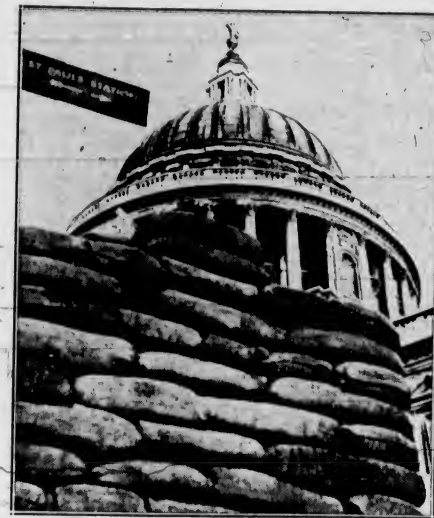

FOUR years ago in Winnipeg a young man, in a tone aimed at being offensive, demanded: "Why don't you make your food cheap enough that a poor man can buy it?" "Well, we buy some and we admit they are the best foods we ever buy, but we'd buy more if they were less costly." Then I asked: "How much do you spend on food?" "Well, I spend about forty cents a day." "You can afford forty cents a day for self-indulgence in smoking yet you can't spend forty cents a week for what you admit is the best food that you eat?" "I asked."

"Well, we buy some and we admit they are the best foods we ever buy, but we'd buy more if they were less costly." Then I asked: "How much do you spend on food?" "Well, I spend about forty cents a day." "You can afford forty cents a day for self-indulgence in smoking yet you can't spend forty cents a week for what you admit is the best food that you eat?" "I asked."

The moral of this little story is food. In the first place, Dr. Jackson's meal is among the least expensive of the forty odd cereals from which you can choose. Its cost per ounce is about half that of the cost per ounce of what are commonly accepted as "cheap" cereals. In the second place, a free use of Dr. Jackson's meal and kaffee-sub means normal bowel action, rich red blood and a consciousness of well-being that makes them worth any price asked. Those who use them most freely will assure you that this statement is not overdrawn. Try them, and prove it for yourself.

One-half million copies of my book "HOW TO BE ALWAYS WELL" have been sold at \$3.00 per copy. It is interested in better health, writes for particulars to Robert G. Jackson, M.D., Toronto 9, Ont. ELMER REBELS

For years I've been hoeing
And sowing and mowing—
I've almost turned into a cow!
I'm sick of potatoes;
And hogs and tomatoes;
I'm leaving the "Rancho" right now!

I'll drink up Vancouver,
And then I'll manoeuvre
My steps to the "Continuing" gay;
With red and sienna
I'll plaster Vienna;
I'll never go back to the hay!

I'll see if St. James' is
As wet as the Thames is;
I'll dance on the dome of St. Paul's;
Should that be a failure
I'll swim to Australia—
No more I'll sleep swill from the stalls!

I'll badger and harass
The girls of Paris—
I'll chase 'em in mauve limousines—
I'll wine with "Contraltos"
On all the Rialtos;
Forewield to the pork and the beans!

On vodka and ladies
I'll canter to Hades;
Good-bye to my rustic charm!
Ten years of manure
Have made me impure—
To hell with the smell of the farm!

LINES TO LAZINESS

Oh, it's soothing and hazy
To be so darn lazy
As I, who so wearily sigh:
"Don't do it properly
If you can sloppily
Do it by 'just getting by'!"

"Don't make me leap about,
Just let me creep about—
Maybe I'll sweat when I die—
Nobody's knighted
For getting excited—
Do it by 'just getting by'!"

"So, let me slosh about,
Cut out the bush about
Bruce and the Spider, say I—
Bruce just got tired,
So did the Spidee—
Fools!—for not 'just getting by'!"

Mused the Undertaker's wife,
What a morbid thing is life—
But how beautiful a body in the coffin!"

Quoth her sprightly spouse, "Egad!
To your sentiments I add
What is gayer than the hearse we
wheel 'em off in?"

**Labor Reaffirms
Stand Concerning
Recruiting Here**

Delegates to the Victoria and District Trades and Labor Council, in regular session in the Labor Hall last night, reaffirmed their stand in connection with recruiting for Canadian military forces. The delegates at a previous meeting opposed a system whereby employees in the civil service and of municipal governments were given supplementary pay to make up the difference between the regular army allowance and that which they earned in civil employment.

The delegates endorsed a recommendation from the council's membership committee for an energetic campaign for membership in unions and the organization of new locals within the Greater Victoria area. E. F. Fox, president of the council, presided.

A Dublin car driver was stopped for careless driving by a zealous constable. He refused to give his name.

Constable: "You'll get yourself into trouble if you refuse to give your name." Still the driver refused.

Constable (persuading): "Now, then, what is it?"

Driver: "Better find out." Constable: "Sure, and I will (going around to the side of the small truck where the name should have been only to find it rubbed off)." "A-ha, now you'll get yourself into worse disgrace, for your name is obliterated."

Driver (roaring): "You're wrong. It's O'Brien."

Court of Appeal Victoria Sitings

The Court of Appeal yesterday dismissed two criminal appeals that were reserved for further argument from the day before.

In the case of Gordon Anderson and Fred McDonald, convicted for attempted car theft, their Lordships refused leave to appeal on the ground there was abundant evidence to support the conviction.

The appeal of James Morrison from a conviction for breaking and entering was similarly dismissed after further argument by the accused and Carew Martin for the Crown. Morrison argued there was no evidence to show breaking and entering by himself. He pleaded an alibi covering his movements on the night in question and said there was no connection between shoes found in his possession and those stolen from the shop.

Carew Martin contended that identity of the stolen goods was proved and that the accused was proved to have had those goods in his possession too recently after the robbery for him to have received them from someone else.

The Court of Appeal held they were satisfied from all the facts that the charge of breaking and entering had been established and so dismissed the appeal. They further stated, although it was not necessary in view of their judgment, that they would have been prepared to support a charge of retaining stolen property.

Chesworth (A) vs. Canadian Northern Pacific Railway (R).—This is an appeal from a judgment of

Mr. Justice Manson in the Supreme Court in Victoria, following a second trial ordered by the Court of Appeal. The new trial had been ordered on the ground that Mr. Justice Manson on the first trial erred in rejecting evidence that was material to the issue.

Chesworth's action arose out of an accident which took place at a railway crossing in Colwood. One of the defendant company's trains struck a car in which the plaintiff and his wife were riding. The plaintiff sued on behalf of himself and the estate of his wife, Mary Jane Chesworth, who died as a result of injuries.

Robert D. Harvey for Peter Chesworth based his appeal on the alleged failure by the defendant company to maintain proper railway crossing signs at the crossing in question.

The case is continuing. A. Alexander for the Canadian Northern Pacific Railway.

How It Started

SOCIETY OF THE CINCINNATI
Two thousand, four hundred and twenty-five years ago odd, Lucius Quinctius Cincinnatus, patrician farmer, was ploughing his fields in Rome.

Rome was then a-borning, a lusty infant, delivered in a hurry, but exposed to envious neighbors, vigilant for a chance to cut down their rival before it got into its stride.

Cincinnatus was wrapped with his labors in the field when he was interrupted by the arrival of a courier, hot from long and rapid riding.

"The Volscians!" It was enough. Cincinnatus dropped his plough, donned his sword, delivered his country from its most dreaded enemies, within as well as without—and returned to his fields.

What more natural, then, that at the close of the Revolutionary War, when American and French officers organized "to perpetuate their friendship and to raise a fund for relieving the widows and orphans of those fallen," they should call their group "Society of the Cincinnati?"

For it was composed of patriots who, like their honored namesake, had, in a spirit of disinterested, unselfish love of country, abandoned the plough to serve their nation, and then, renouncing ambition, returned to their fields.

George Washington was an early, if not the first, president, followed by Alexander Hamilton.

Few Comply With Price Agreement For Restaurants

Members of the Victoria Restaurant and Coffee Shop Association will hold a general meeting on October 16 to decide whether or not they will repeal the rule fixing the price for coffee, tea or milk in their establishments at seven cents and the minimum price for a sandwich at fifteen cents.

Thomas Kelway, president of the association, announced yesterday.

Mr. Kelway said that only ten of twelve members of the association had carried into effect the decision to raise prices on Tuesday, as agreed at a meeting last month. The directors of the association had discussed the situation, and had agreed to leave decision as to prices to the general meeting on October 16.

Indigestion Kills Joy

The greater part of indigestion results from torpid liver action and constipation. On this basis Dr. Chase's Kidney-Liver Pills are a real help when you have digestive troubles. It is only the matter of a few hours until you can have the torpid liver brought to action and the bile flowing freely into the intestine where it acts as a natural cathartic.

EMERGENCY AID TRAINING OPEN

Home Nursing Courses Arranged by Red Cross and St. John Ambulance

At a recent meeting of executive officers of the British Columbia branch of the Canadian Red Cross Society and the British Columbia Council of the St. John Ambulance Association, consideration was given as to how these organizations may best serve in the present emergency in giving training to those persons desiring to be of service to the sick and injured in the home and elsewhere, as and when the need may arise. Co-operation is to be the keynote of both organizations in this important work.

"It is essential that as many as possible of our citizens should have some knowledge of what to do should qualified nurses not be available when required during the period of the war," a statement issued by the two organizations points out.

"Much unnecessary suffering may be saved if members of the family or household are able to attend to the needs of those who, through sickness or injury, may be bedridden or otherwise unable to take care of themselves. To meet this need the Red Cross Society will provide a series of lectures in home nursing for those desiring to take such a course. Members of Red Cross classes will not be required to take examinations to prove their standing and knowledge of the subject but by attending lectures should acquire a knowledge which will be of considerable value in the home should sickness occur or accident be experienced."

ST. JOHN CERTIFICATES
"St. John Ambulance Association will give more complete courses in home nursing for women, and class members will have the privilege of taking examinations to prove their efficiency. Each class member who passes the examination successfully will receive a certificate issued by the association's headquarters at Ottawa, which, together with the St. John Ambulance Association first-aid certificate, is a necessary qualification for membership in Voluntary Aid Detachments (V.A.D.)."

"A large number of people wish to be prepared to give aid in the present national emergency. New home nursing classes are being formed by both the Red Cross Society and the St. John Ambulance Association from time to time, and those persons desiring to acquire knowledge of the subject, which will always be of value to them in their own homes, are requested to communicate with the secretary of the local branch of the Red Cross Society. Those wishing to take a more complete course and obtain certificates which will qualify them for community or national service will communicate with the secretary of St. John Ambulance Association local centre for full information."

"I'll examine you thoroughly for three guineas," "Go ahead, doc. If you find it you're welcome."

Company Head to Rule on Request For Power Slash

A REQUEST for a greater lighting rate reduction than that offered by the B.C. Electric Railway Company, Ltd., will be dealt with by W. Murrin, company president, Mayor Andrew McEwen announced yesterday, morning after a conference with A. T. Goward, vice-president. The mayor was accompanied by Aldermen Archie Wills and Edward Williams. GERMANS SEIZE SWEDISH SHIPS

Five Freighters Escorted Into German Port—Cargoes Not Disclosed

STOCKHOLM, Oct. 4 (AP).—The German Navy today seized five Swedish freighters and escorted them to a German port. An announcement said the 3,647-ton Korsholm, en route to Wilmington, Del., with a cargo of wood pulp, was one of those seized as Swedish shipowners considered asking Germany for the legal right to control harbors to investigate cargoes and determine whether they carried contraband.

The next largest ship seized was the 1,544-ton Britt, bound for Aberdeen, Scotland, also with a cargo of wood pulp.

The others were the Dera, Virginia and Markla, with a total tonnage of about 4,000. The nature of their cargoes was not disclosed.

The shippers asked the German Legation here if it would be possible to have the legation provide certificates to departing ships which would be accepted by German naval commanders as proof that the cargoes were not contraband.

The legation replied it was without authority to issue such papers.

The constables, on information given by Mayor Lyle Telford, were charged with accepting two bottles of rum from Harvey McKibbin, Vancouver taxi driver.

Miss Elizabeth Edwards Smart for Autumn Wear Bride of Mr. D. K. Graham

Pink dahlias and blue Michaelmas daisies arranged before the chancel rails in St. Mary's Church, made a charming setting for the marriage of Elizabeth Louise, only daughter of Major and Mrs. G. D. Edwards, 1388 Hampshire road, and Mr. Douglas Kenneth Graham, only son of Dr. and Mrs. D. W. Graham, Joan Crescent, which took place last evening at 8 o'clock. Ven. Archdeacon Nunns officiating in the presence of a large congregation. Tall standards holding white tapers lined the choir stalls, and white ribbon bows marked the guest pews.

PRETTY BRIDE

The petite bride was given away by her father, and looked lovely in a gown of ivory satin with a long train and short sleeves, which had been worn by her aunt, Mrs. P. M. Anderson, Regina, formerly Miss Elizabeth Edwards, Carleton Place, Ontario. Old-fashioned pearl trimming outlined the square neckline, and an apron of rose-point lace was softly draped across the front of the dress. Her veil of illusion tulle billowed from a coronet of pearls and formed a longer train, and she carried a circular bouquet of gardenias.

THE ATTENDANTS

The senior bridesmaids were dressed alike in frocks of Queen's blue lace with very full skirts, draped bodices buttoned down the front, and short puff sleeves. They all wore pink lace mittens and carried Colonial bouquets of pink flowers. Miss Constance Hobbs, the maid-of-honor, wore a dainty hat of matching blue lace trimmed with a pink ostrich plume, and the bridesmaids, Miss Frances Graham, Miss Westminister, sister of the bridegroom, and Miss Marjorie Brown, wore hats of blue pleated net with a cluster of pink roses in the centre of the crown, and tied with pink velvet streamers.

Three-year-old Heather Scott was a bewitching flower-girl in a Kate Greenaway frock of dusty pink satin, which she wore with a hat of pleated pink net trimmed with blue, and carried a tiny Colonial posy of blue flowers. Mr. Edmund Christopher was best man, and the ushers were Mr. Henry McCandless and Lieutenant Roland Honey. Mr. P. C. T. Wickett played the wedding music.

RECEPTION HELD

A largely attended reception was held at the home of the bride's parents, where Autumn-themed flowers had been profusely arranged. Mrs. Edwards welcomed the guests in a gown of amethyst velvet and a

matching hat trimmed with blue and amethyst plumes, and wore a corsage spray of pink rosebuds, and the bridegroom's mother was in wine lace with a corsage bouquet of Tallman roses and navy blue accessories. The bride and groom stood before a background of gold and bronze chrysanthemums and lighted white tapers in the sunroom to receive the greetings of their friends, and later supper was served in the dining-room from a table covered with a lace cloth and arranged with vases of white chrysanthemums and white lighted candles. Strands of smilax studded with sweetheart rosebuds surrounded the bride's cake, which she cut after the toast had been proposed by Dr. Thomas McPherson.

After a honeymoon in an unnamed destination, for which the bride left in a forest green outfit with a finger-tip grey fur coat and a corsage bouquet of gardenias, Mr. and Mrs. Graham will make their home at 2340 Trent Street.

"I AM A CRIMINAL"

John Carroll Plays Big-Time Gambler Who Hires Press Agent To Exploit Crimes

"I Am a Criminal," the feature film which will open at the Plaza Theatre today, is the story of a big-time gambler who hires a press agent to exploit his crimes. In this picture John Carroll plays a straight dramatic role, that of Brad McArthur, the gambler, and for the first time in his screen career does not sing.

In the supporting cast are Mary Kornman, original "Our Gang" sweetheart; Kay Linaker, Craig Reynolds, and ten-year-old Martin Spellman.

Andy Develops Spring Fever In Story of Popular Family Opening Here Today

Mickey Rooney falls in love again in the lucky seventh Hardy Family hit, "Andy Hardy Gets Spring Fever," which will open at the Atlas Theatre today.

This time it is with his high school teacher, played by Hollywood's newest find, Helen Gilbert. Lewis Stone continues as the Judge. Fay Holden as sympathetic Mother Hardy, Cecilia Parker as sister Marian, and Sara Haden as the knowing Aunt Milly. Ann Rutherford, of course, is still Andy's true love in the role of Polly Benedict. Another new addition is Terry Kilburn, who recently scored a great personal success in "Goodbye, Mr. Chips."

HARRY CAREY IN

FEATURED ROLE

A Western of an entirely new kind is offered in "The Law West of Tombstone," in which Harry Carey has the top-featured role. It opens today at the Columbia Theatre.

Instead of the usual story of hectic action, ceaseless riding and gun-play, the film is largely a character study of a blustering, bragging, but highly likeable, old Texan who backs his boasts with his skill on the trigger, and who, on sheer nerve, makes himself the boss of a large area.

Tim Holt and Jean Rouverol have the romantic leads in the picture, most of which is laid along the Arizona border.

SOUTH LEAGUE WILL OPERATE

Old Country Football Officials Agree to Groupings During War Crisis

LONDON, Oct. 4 (AP).—"South" league groupings for wartime football were endorsed at a meeting of London clubs today. Some dissatisfaction had been expressed on the ground that unnecessary traveling would be involved, but English Football Association officials gave explanations that were accepted unanimously.

The Southern Division is divided into two sections, with Portsmouth, Southampton and Bourne, team included in Section "B" London officials claimed a full day would be required for journeys to these South Coast cities.

London clubs will endeavor to have the competition fixtures completed as quickly as possible, allowing time for tournaments between teams in the London district only. Spectator Dies Of Heart Attack

NEW YORK, Oct. 4 (AP).—The first world series casualty was recorded at 5:30 a.m., P.S.T., today when a man identified by cards and papers in his pockets as Louis Edlin Christina, about fifty, of Cincinnati, collapsed in the bleacher line.

He died, apparently of a heart attack, before the arrival of an ambulance.

Bays Score Close Win Over Alerts; Next Game Friday

Ted Menzies' Squad of Stickhandlers Beats Rivals In City Lacrosse Battle, 14-12, to Take One-Game Lead in Play-Offs—Wally Williams Leads Scorers With Six Markers

After being behind 4-0 at the end of the first quarter and still on the wrong end to within six minutes of the forty-five-minute mark, Ted Menzies' James Bay stickhandlers sneaked up on Harry Sargison's Alerts Service squad and picked off a close 14-12 box lacrosse verdict at the Winlows Sports Centre last night.

The win put the Bays one up on the delivery boys in their best three-out-of-five series for the city championship. The teams will meet again on Friday evening. After dropping the first game, Alerts came back on Wednesday evening and downed the Bays, 18-12.

Although they were in front for the greater part of the bruising game, the blue-shirted players were out of the picture when Wallace slammed in two goals in the final four minutes, after Bray and Doherty had cut a Bays' two-run deficit.

Wallace was high scorer for his team stinging the twine four times, but Wally Williams led the scorers of both teams with six goals.

TWO MEN SHORT

Alerts were two men short when Bray scored in close on a pass from Mason, making the score 12-11 for the servicemen. Seconds later Doherty tore through and beat Gawley back on the floor three minutes later.

ROCHESTER WINS

ROCHESTER, N.Y., Oct. 4 (AP).—Rochester Red Wings squared the little world series with Louisville of the American Association, by defeating the Colonels, 8-5, in the sixth game of the series tonight. The International Baseball League staged a seven-run scoring spree in the third inning to clinch the game.

R. H. E. Louisville — 000 000 500 — 5 11 4 Rochester — 021 000 000 — 9 11 1 Batteries — Parmelee, Flowers, Shaffer and Madjeski; Lyons and Beal.

The clubs are now tied at three games each in best-of-seven series.

Williams snared a loose ball and chalked up Alerts' second goal. A brilliant solo dash by Eric Holyoak accounted for another goal for the blueshirts. Jimmy Pickford was out of the game for a few minutes with a cut over his eye, and then with one minute to go Williams sagged the Bays' net on a pass from Thompson.

AIRLIGHT DEFENCE

Alerts' defence was positively airtight and Bays resorted to firing from well out as the quarter ended. Things changed after the breakaway and McKorkall, Sargent, Wallace and Mason beat Gawley to put the squads on an even basis with three minutes left to play. Williams and Pickford got going again and the Alerts were two-up once more. Norm Coates fired a wide one and Williams sank the rebound, but Art Chapman put a rebound between the servicemen's posts and the half ended, 7-5, for the patrol carriers.

Play was but one minute old in the third period when Williams scored again, but Sargent beat Gawley at the other end, and Art Chapman found a corner to bring Bays within one goal.

Coates rifled a hard underhand shot into the corner of the net seconds later, but Clarke nullified the tally by scoring for James Bay. Wallace went through by himself, and Menzies' crew was pacing Alerts' neck and neck at nine-all.

McDonald was in the cooler again when Bray took the ball from the face of the net and slipped it through to score and put the Bays on top. Norm Coates tied things up at 10-10, and Williams took his home rebound to again put his teammates in front by one goal as the quarter ended.

CHAPMAN IN COOLER

Things looked interesting for a few moments when Art Chapman and the timekeepers' mistake referee Ross' five-minute penalty for a two-minute rest, and the lanky stickhandler trotted back on the floor before his sentence was completely served. After much arguing, Chapman returned to the cooler and the game continued.

Bays turned on the heat, and after overcoming the deficit, went on to win by two clear goals.

Score by periods: James Bay — 0 5 5 4 — 14 Alerts Service — 4 3 4 1 — 12 Penalties—Turner, Bischel; D. Coates and Langdon, two minutes each; Bray, Brown and McDonald, four minutes each; and Chapman, five minutes.

In a midjet tussle, Poul Bay turned back Oskund by one lone goal, 4-2. Poul Bay led at half time, 4-2, but Oakland's tallied five times in the last two periods to their opponents' four. Churnganes was high man for the winners with four goals, and Hampton and Brown tallied twice each for the losers. Score by periods: Poul Bay — 3 1 3 1 — 8 Oakland — 1 1 1 4 — 7 Penalties — Straith, Taylor and Cullen, two minutes each. Referee—Popham and Ross.

The other judge and Referee Benny Leonard voted for Archibald.

Victoria Plays North Shore XI On Monday Next

THE next match in the Inter-City Football League here will be held at the Royal Athletic Park on Thanksgiving Day with North Shore, former Dominion titleholders, facing Victoria Club at 2 p.m. with Tom Hogg as the referee. Victoria performed last week here against St. Saviours and won a 4-2 decision and therefore will be favored to take the strong Mainland eleven in their own back yard. This evening at the Athletic Park the local squad will hold an important workout and all players are asked to turn out. Next Saturday the boys travel to Vancouver to clash with the Radials, the present Canadian champions, rated this year as the best aggregation on the Mainland.

Famous Catcher's Single Drives Home Keller With Deciding Tally in 2-1 Fixture—Ruffing and Derringer Twirl Great Games—Yanks Make Three Double Plays

NEW YORK, Oct. 4 (AP).—In as tight a ball game as ever thrilled a world series audience, New York Yankees got off to a flying start in their drive for a fourth straight world baseball championship today by nipping Cincinnati Reds, 2-1, with a dramatic ninth-inning score. Until clouting Charley Keller, rookie right-fielder, tripled with one out in the last frame, and came dancing home on a double play, the battle was dominated almost completely by the defence, rather than the offence, to the intense excitement of a crowd of 58,541 in Yankee Stadium. Receipts were \$219,041.

The pitching mastery in the right arms of Charley (Red) Ruffing for the Yankees and Paul Derringer for the National League standard-bearers held command all the way. They were aided spectacularly by the Yankees' double-play kids—Shortstop Frank Crosetti and Second Baseman Joe Gordon—on the one hand, and, on the other, by Frank McCormick, the Reds' first-sacker, whose fielding was little short of sensational.

DRAWS FIRST BLOOD

The Reds drew first blood, in the fourth inning, when Ival Goodman walked, stole second on a low throw from Catcher Dickey which escaped Gordon, and raced home on McCormick's ground-ball single, which slid past third base into left field.

Back came the Yankees in the fifth to tie it up. With one down, Gordon fired a single past third base. Up came Babe Dahlgren, successor to Lou Gehrig on first base and generally regarded as the "weak sister" among the bombers of the Yankees' firing line.

He shot a fast ground ball along the third-base line. Bill Werber made a stab at it; but the ball kept right on going to the left field corner. Gordon charged past second baseman Derringer and headed for home as Lefty Feller, Willie Berger retrieved the ball and threw to second base.

Dahlgren reached second safely. Lonnie Frey took Berger's throw, wheeled and pegged to the plate. Catcher Ernie Lombardi had to lunge to pull down the runner, and Gordon rounded third and headed for home as Lefty Feller, Willie Berger retrieved the ball and threw to second base.

Derringer was touched for only half a dozen blows. He fanned seven members of the vaunted Yankee hitting line-up, getting everyone out but Joe DiMaggio and Red Rolfe. After the Yanks scored their run in the fifth, he retired twelve men in order until he came face to face with Keller in the ninth.

Rolfe, first up in the final chapter, was retired on a spectacular play by McCormick, the Reds' first-sacker just beating Rolfe to the bag after retrieving his hot smash.

CRASHES TRIPLE

Keller caught hold of a fast ball and smashed a triple deep to right centre on the fly. Ival Goodman raced over in a desperate try to make the catch near the 407-foot mark, on the bleacher wall. The ball hit his glove, and couldn't hold it. Before Craft recovered the ball and pegged it in, Keller had slid into third.

The Reds' board of strategy purposely passed DiMaggio. They elected to pitch to the dangerous Dickey, however. With the count one and one, the tall catcher hit into Derringer's following serve. His line hit shot over second base and landed in centre field, yards away from Craft, and Keller carried the winning run across.

Tomorrow's second game will see another duel of right-handers. The Reds nominated as their moundman Bucky Walters, converted third baseman, who was the sensation of the National League this year with twenty-seven victories. The Yankees, temporarily minus the services of their veteran southpaw, Lefty Gomez, because of an injured side muscle, will turn to Monte Pearson.

EAGLES BALL BANQUET HELD

Members of Two Baseball Teams and Others Attend "Grand Finale"

Close to 300 attended the baseball banquet of the Eagles' organization at their headquarters, on Government Street, last night. The feature of the function was the talk of J. M. Hooper, of Seattle, president of the British Columbia and Washington State Eagles, who is now touring Vancouver Island inspecting the various lodges.

During the evening the McGavin Cup, won by the senior club, was presented to President Dave Essler by Bill Bridgwood, manager of the club, while the second division championship silverware was passed along to H. O. Hoding, boss of the squad. Mr. Essler was in the chair, and he conducted the entertainment in his usual jovial fashion.

Mr. Hooper, who is also chairman of trustees of the Seattle lodge, which boasts 9,000 members, told the Victorians of the grand fraternal organization to which they belonged. In Washington and British Columbia, said Mr. Hooper, there were some 46,000 members, and that taking in the whole of the United States, British Columbia and Alaska, there were close to 600,000.

During the evening, Bill Pynn, on behalf of the Victoria Baseball League, spoke briefly on the success of that organization, financially and otherwise, and finished by congratulating the second division Eagles on winning the title. Arthur Jackman and Tom Obee rendered several songs, while Cecil Henton was at the piano.

St. Catharines Trims Medicine Hat in Sudden Death Game, 32-8

MEDICINE HAT, Alta., Oct. 4 (CP)—St. Catharines Athletics overwhelmed Medicine Hat Badmen, 32-8, here tonight in the Dominion lacrosse play-downs sudden-death semi-final. Athletics now will meet New Westminster Adanacs in a three-of-five final series opening at Vancouver on October 6.

Athletics, victors over Elmwood Pats, of Winnipeg, in another sudden-death play-off game after winning the Eastern Canada title, outlasted the Medicine Hat squad, which had no competition this season and was awarded the Alberta championship because it was the only club in the province.

The 1938 Canadian champions trampled the Badmen for a 10-1 lead in the first quarter and continued the lead back to a lead of 19-4 at half time. Athletics' scoring spurge was throttled somewhat in the third quarter, and the Eastern champions led, 25-6, going into the final quarter.

Though the game provided little more than a brisk workout for the Easterners, 1,100 rabid lacrosse fans enjoyed a classy exhibition by the 1938 Dominion titlists.

A heavy team, the Eastern champions impressed the fans with their stonewall defence, all-around playing ability and stinging shots. Bill Whittaker was outstanding among the team of stars; his performance in goal picking off close bullet drives making the crowd gasp.

The Badmen played an aggressive game, but were able to do little more than give the St. Catharines team a good workout.

Norman Bannan, Badmen goalie, who got leave from the Calgary Highlanders to play in the game, was the hero of the one-sided contest. Though he let thirty shots by him, he stopped twice that number of point blank shots as the Alberta defence was unable to cope with three and four-man rushes.

Bannan and Bill Brotherton, a rover, had been in barracks with Calgary Highlanders after enlisting with the Canadian active service force, but military officials gave them permission to line up with Badmen.

CHICAGO CUBS TRIUMPH
CHICAGO, Oct. 4 (AP)—The Chicago Cubs took a thrilling see-saw battle from their American League neighbors, the White Sox, tonight, 10 to 9, in ten innings, before a crowd of 42,767 in the first game of their city championship series.

Jones and Smith were sitting in their tent in the African jungle discussing their skill and success as hunters. Presently, Jones remarked that he would bet Smith a five-dollar bill that he could go out and kill a lion forthwith.

Smith eagerly took the bet, and sat back to await results.

"I do," replied Smith, backing away.

"Ah," replied the lion, "he owes you \$5."

Quebec Horse Scores Win at Thorncliffe

Kenneth T. Dawes' Brodes, winner of the Quebec King's Plate, showed his flashy heels to a good band of racers in the Hockey Players' Purse, feature offering at Thorncliffe. Above, the cameraman gives you glimpse of the action at the start and finish. Brodes is shown third at the start, while directly below the photo shows him winning by a length and a quarter under an easy hand-ride. The winner beat Ridge, Donorsia, Bit of Sorrow, Budron, The Cal, Dark Queen and the odds-on-choice, Shoeless Joe.

VICTORIA SQUAD SCORES VICTORY

Driving home three goals in the opening forty-five minutes and another four in the final half, the Wednesday League footballers scored a 7-0 victory over the visiting P and O Line squad yesterday afternoon at the Royal Athletic Park before a fair crowd. Last week the sailors registered a 1-0 decision over the locals, but the Victorians more than made up for this setback.

Harry Holmes started the locals on the way to victory by heading in a beautiful goal after Jimmy Oakman had crossed from the wing. Ball added two more to make it 3-0 at the rest period. In the last period, Oakman increased the margin after twenty minutes of play, and then Duncan made it 5-0 ten minutes later. Ball netted again, and not long after Duncan scored his second marker to finish the scoring for the day.

In the evening the P and O Line team were the guests of the Britannia Branch at a supper at Terry's Restaurant, then attended a function at the Elks Club, and wound up by going to the city lacrosse match at the Willows.

Play-by-Play Description

Here's a play-by-play description of the first game of the world series between the New-York Yankees and the Cincinnati Reds, played yesterday in the Yankee Stadium:

FIRST INNING
Reds—Werber flied to Selkirk deep in left field on the first pitch. After working the count to three and two, Frey sent an easy fly to Dickey in right centre. Goodman fanned swinging at a low inside pitch. No runs, no hits, no errors, none left.

Yankees—Crosetti sent a high fly to Goodman near the right field corner on the second pitch. On a three-to-two pitch, Rolfe bounced to Frey, who threw him out easily. The count again went to three-two before Keller sent a lazy fly to Werber near the left-field line and the Cincinnati cheering section gave Derringer a big hand as the side retired. No runs, no hits, no errors, none left.

SECOND INNING
Reds—On the first pitch McCormick lined a sharp single over Crosetti's head into left centre field for the first hit of the game and a roar went up. After fouling off four pitches and with the count two and two, Lombardi bounded into a fast double play. Rolfe to Gordon to Dahlgren. Croft fanned on three pitched balls and it was the Yankees' fancy chance to cheer. No runs, one hit, no errors, none left.

Yankees—Goodman made a fine running catch of DiMaggio's fly in right. Dickey was called out on strikes, watching a waist-high inside pitch go by. Selkirk was the second straight strikeout victim for Derringer, swinging at a fast ball right down the middle, and the stands let up a loud roar for the tall right-hander. No runs, no hits, no errors, none left.

THIRD INNING
Reds—Berger fanned, swinging at a back-breaking change-of-pace pitch, and a snicker was heard from the first-base cheering section. Myers lined the second pitch over Gordon's head and into right field for a single. Derringer was greeted with a round of applause from all sections of the park as he came to bat. Derringer shot a ground ball fast through the middle which touched Ruffing's hand and continued on to second base. Crosetti made a bare-hand pickup, flipped to Gordon to force Myers, and Gordon threw to Dahlgren in time to retire Derringer on a spectacular double play. Ruffing was credited with an assist. No runs, one hit, no errors, none left.

Yankees—Gordon sent a high foul fly to McCormick just off the first base line. Dahlgren was thrown out on a slow roller. Frey to McCormick. Ruffing was applauded as he came to bat. Ruffing worked the count to two and one, then cracked a line single into left. It was the first Yankee hit. Crosetti fanned, swinging and just tipping a knee-high outside pitch. Lombardi held on to the foul tip to retire the side. No runs, one hit, no errors, none left.

FOURTH INNING
Reds—Crosetti took Werber's fast roller and threw him out by two steps. Keller took Frey's long fly in the right-field corner. Goodman walked on four pitches as Ruffing gave him nothing but slow balls inside. Goodman stole second base. Crosetti's throw got away from Gordon. There was a error. McCormick's hard grounder slid past Rolfe into left field for a single, scoring Goodman with the first run of the game. Lombardi bounced to Ruffing who threw him out with ease. One run, one hit, no errors, none left.

Yankees—Rolfe pushed a lazy fly to Goodman, in right. Keller was called out on strikes as a chest-high pitch just nicked the outside corner. He was Derringer's fourth strikeout victim. DiMaggio was credited with a single as his roller down the third-base line rolled past the bag just fair while Werber watched, expecting it to go foul. Derringer's throw to first was too late to catch Di-

Maggio off the bag. Then Lombardi tried to catch Joe napping, with the same result. McCormick came up with Dickey's smashing grounder and stepped on the bag to put him out. No runs, one hit, no errors, none left.

FIFTH INNING
Reds—Craft beat out a hit when Rolfe's throw of his grounder came too late to catch him at first. The ball was hit between second and third and Rolfe had to come way over to make the play. Berger fanned, swinging at a waist-high pitch inside. He was Ruffing's fourth strikeout victim. Myers bounded into a snappy double play. Gordon to Crosetti to Dahlgren. It was the third Yankee double play of the game. No runs, one hit, no errors, none left.

Yankees—Selkirk rolled to McCormick down the first-base line and he unassisted. Gordon headed a single past third base into left field. Dahlgren shot a fast ground ball by third base into the left field corner and was credited with a double. Gordon scoring with the tying run. Gordon's hit related to the plate as Lombardi had to jump for the throw-in from the infield. Ruffing sent a high foul to McCormick, near the Reds dugout. Craft came over to take Crosetti's high fly in right centre. One run, two hits, no errors, none left.

SIXTH INNING
Reds—Crosetti took Derringer's grounder just to the left of second base and threw him out with plenty to spare. Selkirk backed deep into left for Werber's fly. DiMaggio went far out in right centre to pull down Frey's fly. No runs, no hits, no errors, none left.

Yankees—Rolfe sent Craft far into centre field for his long fly. McCormick momentarily tumbled Keller's grounder but recovered in time to throw him out, making the loss to Derringer, who covered the bag. Myers made a nice play of DiMaggio's fast grounder to deep short and threw him out. No runs, no hits, no errors, none left.

SEVENTH INNING
Reds—There was considerable cheering, whistling and general noise-making as the fans stood up for the traditional "stretch." Rolfe came in for Goodman's bouncer and threw him out. There was a burst of applause as McCormick came to bat, apparently for his fine fielding and the fact he had collected two singles in his previous trips to the plate. Crosetti threw out McCormick on a close play. Lombardi sent a high foul to Dahlgren halfway down the first base line. No runs, no hits, no errors, none left.

Yankees—Frey raced twenty-five yards out onto the outfield grass to take Dickey's fly. Goodman almost lost Selkirk's liner, but made the catch on the end of his glove in right field. Gordon fanned, swinging at a fast ball down the middle. No runs, no hits, no errors, none left.

EIGHTH INNING
Reds—Craft sent a high popper to Rolfe on the infield dirt. Gordon made a spectacular stop of Berger's bounding smash back of second and threw him out. Crosetti came up round of applause. Crosetti came up with Myers' hot grounder and threw him out. The stands applauded again as the Yankees came in after a fine-fielding exhibition. No runs, no hits, no errors, none left.

Yankees—Dahlgren fanned swinging at a side-breaking curve to a right-handed batter. Dahlgren was Derringer's sixth strikeout victim as he was called out on a knee-high third strike. Crosetti grounded to Werber who retired him by two steps. No runs, no hits, no errors, none left.

NINTH INNING
Reds—Once more Derringer was greeted by a burst of handclapping and whistling from all corners of the stadium as he came to bat.

CITY TOO DULL FOR ISLANDERS

Couple Who Like Adventure Will Make Trip Home On New Cruiser

"We could never come back to the dull routine and conventionality of city life," said Mr. and Mrs. Harold Wakefield Cox yesterday, as they prepared to return to their home on Cortez Island, twelve miles off Campbell River, after a week's stay in Victoria.

Mr. Cox came to the city to enlist, but was told to wait, so he decided to buy the Bodega, thirty-two-foot Diesel-engine cruiser, on which they will make the trip home. The fact that neither knows anything about Diesel engines causes him no worry.

"We've phoned the family that we're coming, so they can notify the Provincial Police if we don't turn up," laughed Mrs. Cox, who came here in response to a call from her husband to help sail the boat home.

HAVEN OF REST
A year ago Mr. and Mrs. Cox resided in Victoria, and owned a cantaloupe farm in Saanich, prior to acquiring a haven of rest on Cortez Island. "Although I guess you wouldn't call it a rest," said Mrs. Cox, "we've had lots of odd experiences."

When they first arrived on the island, she and her mother, Mrs. Hastings, formerly of Cadboro Bay, spent two days in a bare house waiting for the tug that would bring her husband and all their household possessions. The Provincial Police finally had to locate the tug, which had developed engine trouble.

Once they were stranded for three days on the Gulf bird sanctuary, Milenatch Island, being rescued again by the police. Another time they drifted fifteen miles to sea at night, when their anchor failed in a storm, and they once went adrift on a failing expedition up Bute Inlet and woke up in the lee of a forest fire.

"It's a life of adventure, fun and satisfaction, and that makes everything worth while," said Mrs. Cox.

WAR CONFERENCE AT LONDON CALLED
Continued from Page 1

The resources minister will return to Ottawa and report to his Government, as will the ministers from the other Dominions.

The Imperial consultation plan was announced today first from Ottawa, where the Prime Minister's office made public a statement later delivered in the British House of Commons by Anthony Eden, Secretary for the Dominions.

Mr. Eden said the Cabinet Ministers will travel to England as soon as is practicable with the "object in view being to co-ordinate to the best advantage the contributions which each of us can make to our common task."

The Prime Minister's office announced Mr. Cregar's appointment as Canadian delegate three hours after the conference was disclosed. Prime Minister Mackenzie King said Mr. Cregar will consult on specific matters with members of the British Government "with a view to insuring the most effective co-ordination of war effort and will return as soon as possible in order to report on the situation to his colleagues."

NO EMPIRE WAR CABINET
Mr. Mackenzie King also said that there are no suggestions of an Empire war cabinet or conference being set up.

It was considered constitutionally significant here, in light of the enlarged autonomy that British Dominions have acquired since the Great War, that the call for consultations went out one month after hostilities began. On the previous world conflict it was not until 1917 that the Imperial War Cabinet and Imperial War Conference were established.

The Government has not decided yet who will accompany the delegate, but it is learned his staff is not likely to be large.

There is unofficial talk in Ottawa concerning the possibility some prominent Canadian now in England might assist Mr. Cregar. Hon. Charles Dunning, former finance minister, who retired because of ill health, is in England as well as Rt. Hon. R. B. Bennett, former Prime Minister. Hon. Vincent Massey, Canadian High Commissioner in London, will certainly aid Mr. Cregar during the conferences.

ANNOUNCED IN HOUSE
LONDON, Oct. 4 (CP)—Arrangements for closer "consultation, co-ordination and co-operation" between the Dominions and the Government of the United Kingdom, through meetings or ministerial representatives here shortly, were announced in the House of Commons today.

Dominions Secretary Anthony Eden told the House Canada, Australia, New Zealand and South Africa had agreed each to send a Cabinet Minister to London "to confer with ministers here and with each other, the object in view being to co-ordinate to the best advantage the contribution which each of us can make to our common task." His statement was in answer to a question from the Labor Opposition leader, Clement Attlee.

The submarine, the U-35, torpedoed the vessel not far from the coast of Cornwall, off the Scilly Islands, and took the crew aboard. Members of the crew said they were treated politely by the submarine captain.

The vessel, listed by Lloyd's as owned by D. J. Paterson, of Chios, Greece, was bound from West Africa for Harrow-in-Purbeck, England. Three torpedoes fired from the submarine on Tuesday at 1:30 p.m. sank the ship. Six members of the crew were said to have been treated for injuries suffered in the explosion at a Dingle hospital.

"Dingle is in Southwest Eire on Dingle Bay, which opens into the Atlantic. Eire has expressed her determination to remain neutral in the war, and under international law belligerent warcraft are permitted to enter harbors of neutral countries."

MINISTRY'S STATEMENT

"There is, and can be, no question of departing from the well-recognized principle that executive responsibility remains with the several Governments individually. This principle has been made abundantly clear by constitutional developments of the last fifteen years and by the passing of the Statute of Westminster."

"But the fact that this is the position only emphasizes the need, for constant consultation by all practicable methods, especially when vital issues are at stake and when the members of the British Commonwealth are concentrating all their energies on the common task."

According to a press dispatch from Pretoria, Colonel Denys Reitz, Minister of Native Affairs, will represent South Africa.

In Sydney, among those prominently mentioned as possible Australian representatives were Sir Henry Gullett, Minister for External Affairs; Senator G. McLeay, Minister of Commerce, and Richard Casey, Minister of Supply and Development.

CRIME TEARS ON CAROLYN WELLS

CHAPTER X

Mrs. Hetty Garson, housekeeper-in-ordinary at Silver Hill, was the wife of Elkanah, a man of illimitable ability. He was a modified valet to Harley Madison, and looked after the boys a bit, and attended to civil wars among the servants, and was so trustworthy that he was called steward; and he was a good one.

He was Miss Cornelia's right-hand man, and was afraid of nobody on God's green earth, with the single exception of his wife, Hetty. Her opinion may be summed up in the phrase she used to describe him: "That worthless Elk! He's such a beast!"

Elkanah was long and lank, with a wiry strength and a great power of endurance. His eyes were keen and shrewd, his understanding quick and his response even quicker. His homely face seemed to show a high grade of intelligence, but the trouble with Elk was he seldom fulfilled that promise. He was sure of his facts, sure of his memories, sound in his logic, but he had little intuition and no imagination.

However, Hetty had enough of these things for both, and with her guidance the pair achieved wonders.

By Saturday noon, the day following Yvette's arrival, Hetty had sized up the visitor and was giving Elkanah the net result.

"She's fine," Hetty declared, "and she's deep. Mr. Craig is mad about her, and Mr. Madison is high off his head, too."

"Sho', Hetty. Not Mr. Harley Madison!"

"That's what I said. But he ain't fell yet; he's hoverin' on the brink. It's up to her. If she wants him, she can easy get him. But I doubt she wants him. He's rich, to be sure, but she's likely got a hundred wealthy suitors, maybe dukes and earls and such, like as not."

"Mr. Madison's a good catch, though. But what would Miss Cornelia say to such a mad marriage?"

"Well, you know Miss Cornelia thinks everything and anything her brother does is perfect."

"Blest be-ee the U-I-I that binds Our hear-arts in Chris-tian love"

It was Hetty's habit to break into a hymn, even during her own conversations.

"But," she went on, "I know who would be mad, and she'd raise the devil's own row, and that's Mrs. Boyce. She's always expected to have Harley Madison before she dies as much as she expects to have heaven after."

"If he marries her, he won't have much heaven before he dies, what ever he gets after. But our Mr. Madison ain't thinking about marryin' or givin' in marriage. He's all rolled up with his fancy town buildin' and improvin'. He only looks at this state girl like a picture, you know. Besides, she is Mr. Craig's girl! If she's anybody's. Mr. Harley ain't a snitcher."

The pair were sitting in the steward's pantry, and to them ap-

peared Miss Cornelia, with lists in her hand. Miss Cornelia was great on lists, and woe befell anyone who omitted an item meant for his attention.

"We're having a picnic this afternoon," the lady told them. "I've seen Wilkins about the food, and I want you two to take the thing in charge. The two big cars will hold us all, and we shall go to Felton Falls for the supper. Have an eye to everything. Elkanah, for though we pretend it is an old-fashioned picnic, I want it to be both comfortable and beautiful. Elkanah, look after the cocktails and champagne, and see to the hot coffee and tea bottles. Take the station car, as usual. Wilkins will need your help. And Hetty, have simple but very nice china and napery. It is a pleasant thought to me that I can entrust it all to you two, knowing that it will be the same as if I had done it all myself."

Cornelia had been relieved of her sudden fear that her brother would make a fool of himself over Yvette. When, a short time ago, Harley had asked her to go for a drive with him in the afternoon, Yvette said, "Oh, let's make it a picnic and all go."

Wherefore Cornelia had taken hope that even if Harley was deeply interested in the girl she was not leading him on.

Harley Madison directed the guests to their seats in the cars, and when they started off Yvette discovered herself on the back seat between Laura Lee and Craig Madison, with Everett Ames and Clifford Hale facing her. The October sunlight made the autumn leaves gay, the breeze was not too strong, and the roads were fine.

"I do love a motor ride," Yvette said, "when all the conditions are right—the weather, the car, the people, all just as they are now. Can't we drive through the village? I want to see the improvements Mr. Madison is making."

"Oh, they're not started yet," Craig told her, and Everett Ames added, "They never may be."

"Why not?"

"Oh, there are some differences of opinion among the directors, and if it gets much worse, Mr. Madison may withdraw from the syndicate, and what would his fellows do then, poor things?"

"Further developments this morning?" Craig inquired.

"Well, yes," Ames said. "There were one or two disgruntled letters in the mail, but I fancy Mr. Madison will know how to deal with them."

"To Be Continued"

"We had a wonderful trip!" enthused the motorist. "We saw snow-capped summits leading toward the cerulean heavens; foaming torrents raging through the bottoms of shadowy canyons; we looked down from beetling crags into the depths of limpid lakes; traversed sylvan glades shot with flashes of golden sunlight; we—"

MARINE—TRANSPORTATION

EN ROUTE TO REPORT WAR

Japanese Newspapermen Arrive From Orient and Take Plane East

Despite the fact that there is a war on their own doorstep, two Japanese war correspondents arrived at Vancouver aboard the N.Y.K. Hie Maru on Tuesday. They are en route to "cover" a war on the other side of the world. The reporters—Tokuji Takamatsu and Momotaro Enomoto, both of the Tokyo newspaper, Nichi Nichi—flew from the Mainland port to Seattle, where they boarded a United Airlines plane for the trip to New York.

The Japanese newspapermen expect to sail from New York today on the Dutch liner Statendam. Takamatsu hopes to accompany the British armies on the Western Front, and Enomoto the French armies.

OTHER TRAVELERS
Other travelers arriving on the Japanese liner included Miss G. Kouchevsky, Russian girl, who was hastening to Seattle, where she will be wed to a United States marine, culminating a courtship which started in the Orient two years ago. C. T. Saved From Courageous

Two members of the crew of H.M.S. Courageous, sunk by a German submarine, are shown talking with a member of the crew of a British ship that rescued them. The British Admiralty announced that 681 survivors had been accounted for.

British Columbia agents of the Donaldson Line announce that no official advice has been received concerning the withdrawal of the company's ships from the European North Pacific service. Delays are to be expected the agents point out, but so far as is known at the present time the calls of Donaldson Line ships to Victoria, Vancouver and New Westminster will be continued.

Sailing of the Gracia from Glasgow was canceled at the time the liner Athenia was torpedoed, and the Salamis, a new motorship, was temporarily withdrawn. Ms. Morver, due here this month, experienced engine trouble and will be held up in the South for about a month while repairs are being effected. After that the regular service is to be resumed, subject, of course, to possible changes which may be necessary to conform to developments.

PLANES SEEK MISSING MEN

Search for Lost Pilot and Passengers Proceeding In Quebec

MONTREAL, Oct. 4 (CP).—Five

airplanes, in addition to land parties, will take part in the search for three men, missing three weeks in Eastern Quebec's North Shore district.

Quebec Airways officials announced that in addition to four

planes already in the district, another plane left here today for

Montreal, Que., from where Pilot Joseph Fecteau and two passengers set out last month for Lake Melville, near Labrador. They have not been reported since.

The passengers were G. H. Davidson, Montreal, and J. C. Cote, Beaumont, Que., in Belcher County, Cote, who previously was identified incorrectly as O. C. Cote, of Three Rivers, Que., is a brother of the late Senator J. L. Cote, of Alberta, and a brother-in-law of the late Hon. Adolphe Turgeon, former Speaker of the Quebec Legislative Council. He resided in Montreal until this spring.

Brokers Announce Insurance Rates To Britain Drop

NEW YORK, Oct. 4 (CP).—Marine

insurance brokers announced today the British Government has reduced its war risk insurance on shipments to Great Britain from 2 per cent to 11-2 per cent of cargo value.

The rate on shipments from England held unchanged at 11-2 per cent. The rates apply to all except enemy ships.

The comparative rates quoted by private companies in Great Britain and the United States are 21-2 per cent from Great Britain and 11-2 per cent from Great Britain for ships under the United States flag, 3-4 per cent to and from on neutral ships, and 5 per cent both ways on belligerent ships.

Fisherman Reports White Whale On George's Bank

BOSTON, Oct. 4 (AP).—Now comes Captain Mike

Driscoll, of the trawler Ebb, reporting a white whale, a possible descendant of Herman Melville's immortal Moby Dick. Captain Driscoll said today when the Ebb docked at the fish pier the rare specimen was sighted on George's Bank, about 200 miles east of Boston, while the trawler was fishing. He estimated the whale's length at between eighty and 100 feet and said it spouted but once and disappeared.

PREPARE TO GET BODIES

Search Party Will Bring Back Remains of Dead Flyers

MONTREAL, Oct. 4 (CP).—A special party prepared today to set out from Moisie, Que., to bring back to civilization the bodies of two airmen, found last night exactly three months after they disappeared in the rugged bushland of the lower St. Lawrence north shore.

The bodies of the airmen, Clifford Frechette, Quebec, and Edward Gagnon, Montreal, were found by Indian hunters about ten miles south of where their plane was discovered intact last week on Magpie River. The men were lost July 3 on a 250-mile flight from Sandgirt Lake to Moisie, nearly 300 miles below Quebec.

General Manager C. R. Troup, of Dominion Skyways, Ltd., said early today that the Indians found the bodies midway between the spot where the plane was forced down and the northern tip of Grand Lac Magpie.

COMBED DISTRICT
Two search parties, each composed of two Indians, had started trekking through the bush country immediately after the plane was found. They combed the district until they met.

Troup said it probably will take a week to get the bodies out of the mountainous country. He had not been advised whether the men left any messages.

Discovery of the bodies spurred the search for two other missing planes, one of which disappeared in the same area where Frechette and Gagnon were lost. A Royal Canadian Air Force plane has been missing also since September 14 on a flight from Megantic, Que., to a Maritime station.

Excursion Rates Will Prevail on C.N.R. Next Week

Next "bargain trip" to be operated by Canadian National Railways from Vancouver, Victoria, Nanaimo and New Westminster to Okanagan Valley points as far south as Penticton, and main line points between Port Mann and Kamloops, including Tranquille, scheduled to leave Vancouver at 7:15 p.m. Friday, October 13. Return limit calls for excursionists to leave destinations Monday evening, October 16, arriving back in Vancouver early Tuesday morning.
